

The MRC Centre for Regenerative Medicine

The MRC Centre for Regenerative Medicine (CRM) is a world leading research centre based at the University of Edinburgh. Together we study stem cells, disease and tissue repair to advance human health.

The Centre is based at the Scottish Centre for Regenerative Medicine (SCRM) building, on a site shared by the Royal Infirmary Hospital and the University of Edinburgh's Clinical Research facilities. With our new state-of-the-art facilities and team of scientists and clinicians, the Centre is positioned uniquely to translate scientific knowledge to industry and the clinic.

Our research is aimed at developing new treatments for major diseases including heart disease, liver failure and diabetes as well as degenerative diseases such as multiple sclerosis and Parkinson's disease.

We also train the next generation of basic and clinical scientists and act as a centre for public engagement and source of advice for policy makers.

How you can help

We are extremely grateful to everyone who supports the MRC Centre for Regenerative Medicine. By making a gift or organising a fundraising event you can help us to continue our research and contribute to the development of new treatments.

Make a gift

All contributions have an enormous impact on the work we can do and give our researchers and clinicians access to the most modern technologies in the world. There are several ways to make a donation, including using the form on the reverse of this form.

Get involved

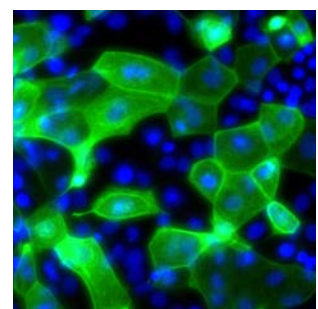

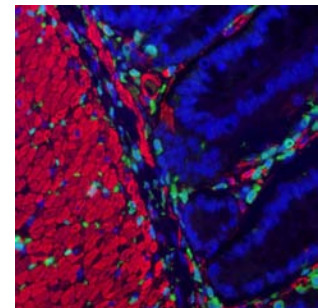

Fundraising activities are great for raising awareness as well as raising much needed income. The choice of fundraising activities is almost unlimited; the most important thing to keep in mind is that you chose to organise something which is both safe and legal. It's also a good idea to choose something fun! Please get in touch for help with you fundraising idea. As well giving you fundraising advice and tips, we can also create an online sponsorship page and promotional materials such as posters on your behalf.

More information

For more information regarding making a donation, or organising a fundraising event, please contact:

Donate to the MRC Centre for Regenerative Medicine

You can help us find a better way to treat diseases like heart disease, diabetes, multiple sclerosis, Parkinson's disease and liver failure. Your support is vital and all funds raised will be used to:

- directly support our research
- understand the fundamental biology of stem cells
- use this knowledge to accelerate progress towards making regenerative medicine a reality for patients

To support the MRC Centre for Regenerative Medicine at the University of Edinburgh please complete and return this form, thank you.
